

## Head of Clinical Pathology (m/f/d)

At Bayer we're visionaries, driven to solve the world's toughest challenges and striving for a world where 'Health for all, Hunger for none' is no longer a dream, but a real possibility. We're doing it with energy, curiosity and sheer dedication, always learning from unique perspectives of those around us, expanding our thinking, growing our capabilities and redefining 'impossible'. There are so many reasons to join us. If you're hungry to build a varied and meaningful career in a community of brilliant and diverse minds to make a real difference, there's only one choice.

### YOUR TASKS AND RESPONSIBILITIES

- Thorough scientific evaluation and interpretation of clinical pathology data of all types of early and regulatory studies by concurrent adherence to all appropriate international regulatory guidelines and GLP principles
- Provide expertise and interact with study directors, sponsors and pharmacologists to support the development of a given compound and the use of established and new parameters and biomarkers
- Support and drive development of the existing biomarker-portfolio with focus on mass spectroscopic methods
- Be responsible for the guidance and instruction of motivated and highly qualified technicians
- Be responsible for quality management and quality assurance processes as well as for safe working conditions in the laboratories

### WHO YOU ARE

- Pharmacist (m/w/d) specialized in clinical chemistry (m/f/d) and possibly also Toxicology and Ecotoxicology, Clinical Chemist (DGKL) (m/f/d), physician for laboratory medicine (m/f/d) or scientist (m/f/d) with long-term working experience and comprehensive knowledge in clinical pathological methodology including immunological (ELISA, RIA) and mass spectroscopic (LC-MS-MS) methods
- High competence in all fields of laboratory medicine including mass spectroscopy

- Broad toxicological expertise (registration as ERT, DABT is a plus) as well as experience with LIM- systems (ideally with Pristima) and Good Laboratory Practice
- Qualification and experience as radiation protection officer (m/f/d) preferable but not mandatory
- Interest in furthering a proficient laboratory with broad expertise with high degree of responsibility, self-initiative and motivation as well as strong communication and leadership skills
- Fluent in English, both written and spoken; willingness to learn German

**This permanent full-time position is to be filled in Wuppertal-Aprath.**

## **YOUR APPLICATION**

This is your opportunity to tackle the world's biggest challenges with us: Maintaining our health, feeding growing populations and slowing the rate of climate change. You have a voice, ideas and perspectives and we want to hear them. Because our success begins with you. Be part of something big. Be Bayer.

Bayer welcomes applications from all individuals, regardless of race, national origin, gender, age, physical characteristics, social origin, disability, union membership, religion, family status, pregnancy, sexual orientation, gender identity, gender expression or any unlawful criterion under applicable law. We are committed to treating all applicants fairly and avoiding discrimination.
